### Program Description

Achieve Tutoring believes that all students can increase their confidence and improve their academic performance with the right tutoring program. Our program is designed to help students in grades K – 12 in math and English/Language Arts, and our tutors engage students to make learning enjoyable and approachable. Our math program builds basics skills in addition, subtraction, multiplication and division. Then we introduce students to decimals, fractions, percents and word problems. Our English/Language Arts program improves reading comprehension, writing and vocabulary for all grades. We place a strong emphasis on phonics, grammar, spelling and vocabulary for our early learners. Our tutors are patient, encouraging and engaging and tailor their instruction to a child's specific learning needs. Tutors group students by ability and keep all tutoring groups small to ensure individual attention. Our tutoring sessions occur at the school, two or three times a week and last between 90 – 120 minutes. We can accommodate some ESL students, please contact us to determine if we can accommodate your ESL need.
